

ANAS ABBAS | RESUME

- » Job Status: SWE III at Google
- » Education Status: M.S. and B.S. in Computer Science
- » Skills: Java, C#/, C++, SQL, Delphi
- » Interests: Cloud Computing, Machine Learning, Competitive programming
- » Activities: Running, Teaching

Summary

A CS graduate, student and a teacher with a passion to learn and create more . with more than five years of experience in different fields like Distributed systems, Cloud Computing, Backend development, embedded software engineering and delphi development.

Experience

- | | | |
|-----------------|---|--|
| 12/24 - Present | Software Engineer III, GGNU, Dublin - Ireland | Google |
| | <ul style="list-style-type: none"> » Designed and implemented a network drainage system for SREs to Qos drain a site before shutting down. » Designed and implemented an un-reachability handler to detect and reroute traffic away from an unreachable site. | |
| 9/23 - 11/24 | Software Engineer III, OMS, Dublin - Ireland | Workday |
| | <ul style="list-style-type: none"> » Delivering a resilient, distributed and partitioned framework with Failure Handling. » Implementing, Graphing and analyse metrics for fair task distribution » Improving and sustaining the Job Framework in a distributed system environment. | |
| 8/22 - 8/23 | Software Engineer, Cloud Watch, Dublin - Ireland | Amazon Web Services |
| | <ul style="list-style-type: none"> » Contributed to the development of the AWS Alarm Override feature, enabling internal teams to simulate and debug their implementations for already published alarms. » Redesign and Developing Authentication and Authorization handlers for cloud watch public and private APIs. | |
| 12/21 - 8/22 | Backend Engineer, Finance team, Dubai - UAE | Noon |
| | <ul style="list-style-type: none"> » Developed monthly statements APIs for sellers on noon partners web portal using python FastAPI web framework. | |
| 12/19 - 12/21 | Software Engineer, Remote | Dell Boomi , outsourced in C3S |
| | <ul style="list-style-type: none"> » Developed Snowflake Connector which is now a key part of Boomi. » Dell Boomi connector SDK, AWS SDK and Snowflake JDBC driver were used. | |
| 10/20 - 10/21 | Teaching Assistant, Cairo - Egypt | Faculty of Computer Science |
| | <ul style="list-style-type: none"> » Teaching, preparing materials and supervising graduation projects. » Taught and prepared materials for the following courses: <ul style="list-style-type: none"> » Operating Systems. » Digital logic design. » Introduction to programming. » Artificial intelligence. | |
| 6/20 - 10/20 | Head of training committee, Alexandria - Egypt | EOI |
| | <ul style="list-style-type: none"> » Developed web-based Interactive IQ problems in Beaver Egypt Contest. » Prepared algorithmic material for Coaches to teach the selected students. | |

- » Managed Problem Setters' team who prepared [IOI](#) Style contest for top students in Egypt.

6/19 - 6/20

Problem Setter, Remote

[HackerRank](#), [HackerEarth](#)

- » Created problems around data structures and algorithms across various difficulty levels.
- » Tested problems created by other problem setters..
- » Prepared live contest on [HackerEarth](#) with more than 10k participants

3/19 - 12/19

Software Engineer, Alexandria - Egypt

[MillenSys](#)

- » Took part in Developing [MiViewer](#) that shows multi-modality images and cine-loops.
- » Took part in Developing [MIERP](#) which is a web based modular software solution.

11/18 - 3/19

Officer Software Engineer, Ismailia - Egypt

[Egyptian Armed Forces](#)

- » Developed Demo project for Human Detection to be used in sentry gun.
- » Matlab detects motion and send signal to microcontroller via USB to execute actions.

8/18 - 11/18

Embedded Software engineer, Cairo - Egypt

[Harf](#)

- » Developed a smart home lock using OTP technology.
- » syncing was done between Arduino Uno and Android application.

6/17 - 10/17

Intern

[Tea Computers](#)

- » Took part in [University to work](#) Program offered by Tea computers.
- » the Program included Developing web Applications using ADO.net, MVC and SQL Server.
- » The end of UTW Program included automation testing using Selenium.

»»» Education

2020 - 2025

M.S. Degree, Computer Science

[Ain Shams](#)

- » Research is mainly in the GPU Acceleration Network Intrusion Detection Systems
- » Published the open-source open-access research paper [Multi-Pattern GPU Accelerated Collision-Less Rabin-Karp for NIDS](#) in the International Journal of Distributed Systems and Technologies (IJDST)
- » Published [Work-efficient Parallel Rabin-Karp for GPU Accelerated NIDS](#) in the 2024 International Mobile, Intelligent, and Ubiquitous Computing Conference (MIUCC)
- » Published [Enhanced Aho-Corasick Algorithm for Network Intrusion Detection Systems](#) in the International Journal of Intelligent Computing and Information Sciences
- » Passed Pre-Master's courses with overall Excellent grade

2014 - 2018

Bachelor's Degree, Computer Science

[Ain Shams](#)

- » Ranked first over computer systems department with 3.22 total GPA

»»» Achievements

- » 2019 Won 1 gold medal, 1 silver medal, 3 bronze medals at Hackerrank
- » 2017 Ranked 55th place in ACM Egyptian Collegiate Programming Contest
- » 2017 Ranked 5th place in Ain Shams Local Contest
- » 2017 Ranked 4th over Egypt on IEEEExtreme contest 10.0 (292 globally)
- » 2017 Ranked 2nd place in Assembly Course contest
- » 2016 Ranked 1st place in Data Structures Course Competition
